Help Us Be There

Hospice at Home provides on average 126 nights of hands on care each month...

"He was still Daddy, even in the midst of everything that was going on. That was the enormous benefit of Hospice at Home: being able to maintain a normal family environment, as much as possible."

Xanthe, Sam's wife

... but due to current funding levels, on average one in three patients requesting support from our Hospice at Home team have to be refused care each night.

You can help us be there for these patients by supporting our appeal to fund an additional 200 nights of specialist care.

Help us be there

arhc.org.uk

making every moment count

- **Hospice at Home provide specialist care for those in the final two weeks of life**
- **The population we serve is currently over 1/2 million people and is expected to increase**
- **In the last 12 months, 1/3 of the requests each night for Hospice at Home support went unmet**

We would like to fund an additional 200 nights of care this year. We can't do it without the generosity of our supporters and those in our community.

There are lots of ways you can support us.
